Cad files - converted to a drawing that you can print. Will not look like much as the pen configuration is not set up. It is a topo of the existing site.

**Subject:** Public Records Request - Sesko

Hi Gunnar,

I'm working on a public records request for any records involving the Sesko/McConkey brownsfield cleanup issues. This one came up on Kevin's search. I can't open the files - can you tell me if it's responsive, and if it is, can you convert the files to something common like pdf? Appreciate your assistance,

*Carol*
